Susan

Per our conversation earlier this afternoon, I will need a listing of those personnel that have the potential to deploy in support of the Gold King Mine Spill. I know you are conducting a review of the employee's training; however, I'd like to reiterate that the minimum requirement for those deploying is the 24hr initial HAZWOPER training with the 8hr HAZWOPER refresher, as required under 29 CFR 1910.120 for all emergency response activities.

I will vet the employees on the potential deployment list and let you know whether or not they meet the minimum H&S requirements.

**Subject:** RSC Request for Deployment - URGENT; Gold King Mine Spill  
**Importance:** High

The REOC has been activated for the Gold King Mine Spill. This is an immediate activation of the R6 RSC.

The Region is requesting 30 EPA staff be immediately deployed to the Farmington NM area as community relations support. Deployment is for potentially a week (min 5 days deployment).

Preference is for a min of 24-hour HAZWOPER, and medical monitoring.

Please have staff, that have supervisor approval to deploy, email Michael Torres and cc Mikeal Adams and Susan Webster.

Thank you for you help! Susan
